

INDUSTRY VILLAGE

LES ARCS FILM FESTIVAL

LES ARCS COPRODUCTION VILLAGE – December 14 - 17, 2019

Submissions are now open!

LES ARCS INDUSTRY VILLAGE is Les Arcs Film Festival's professional event dedicated to the independent European film industry.

It aims to increase the exposure of promising projects from all over Europe, to create a place for networking and support new partnerships. Each year, **550 professionals** (producers, sales agents, distributors, financiers, fund representatives *etc.*) are attending the festival's industry events.

The Coproduction Village gathers a selection of **20 European projects in development** seeking coproducers and/or financiers, showcased to the professionals attending the festival. The producers with selected projects benefit from **one-to-one meetings, conferences and networking events**.

This year's countries in focus are **Finland, Lithuania, Estonia and Latvia**. Among the 20 projects selected to the Coproduction Village some seats will be reserved to projects emanating from these states.

In the past years, the Coproduction Village hosted projects by László Nemes, Carla Simón Pipó, Alice Rohrwacher, Rúnar Rúnarsson, Grimur Hákonarson...
